

ELECTRICAL HAZARDS AWARENESS PROGRAM WORKSHOP

Electricity is a serious and widespread hazard to arborists. In fact, electricity causes about 15 percent of all fatalities in the tree care industry, making it the leading cause of worker fatalities.

The Electrical Hazards Awareness Program (EHAP) is a great way to keep your crews aware of electrical hazards and reduce injuries and losses, plus keep them trained and ready so you're prepared to qualify for storm clean-up at any moment.

Name: _____

Address _____

Phone _____

ISA Membership # _____

Email: _____

**When: June 24th
9:00am – 4:30pm**

**Where: 930 Park St.
Grinnell, Iowa**
